Madeleine:

Nothing at all. Emyr clearly thinks he doesn't need to respond to requests from the Board. I spoke to Peter M earlier and he says Emyr was reluctant to do so, because of his paranoia about putting things in the public domain, Fols etc

Are you around tomorrow at all? I'll be reading my papers and hopefully putting an e-mail together on the landscapes paper
I'm home all day, just give me a ring on [REDACTED]

Morgan

Did you get a response to this request?
It would be good to have a catch up!
M

Dear all:

I will probably miss the informal discussions around the Circuit of Wales that I'm sure will take place on Tuesday. I'm disappointed that it's not tabled as an agenda item for Wednesday, as it has major reputational implications, particularly in the context of independent evidence-based advice.

Could you please send me a copy of the final submission we made (as amended) and a brief account of representations that were made to us on this subject, and of the meetings that Chief Executive and staff held with Government, developers and the local authority

Thanks

Morgan
